

MAX MEINHOLD

EDUCATION

Rochester Institute of Technology

Computer Science B.S.

📅 2017 - 2021

EXPERIENCE

Data Analyst

Asexual Community Census

📅 August 2017 - Current

Assist in processing and analysis, survey design, and report creation for the annual Asexual Community Survey.

AV Responder

Classroom Technology Support

📅 January 2018 - Current

📍 Rochester Institute of Technology

Handle customer support for RIT classroom and auditorium AV systems. In addition, provide immediate response and issue resolution for classroom technology.

Software Intern

Emergent Space Technologies

📅 June 2016 - August 2016

📍 NASA Goddard Spaceflight Center

Built a GPS solution in MATLAB from the ground up. Analyzed GPS distortion as a factor of ISS structure for the NASA GEDI project.

PROJECTS

Quotefault Slack Bot

<https://github.com/mxmeinhold/csh-quotefault-bot>

📅 Summer 2018

Developed an API to handle a Slack command for Computer Science House's (CSH) Slack workspace. Allows interacting with CSH service Quotefault from within Slack via the Quotefault API. Built in Python using Flask.

ThemeSwitcher

<https://github.com/mxmeinhold/CSHThemeSwitcher>

📅 Spring 2018

Built a service for saving a user's Bootstrap theme preference and applying it to internal CSH services. Built using AngularJS and Bootstrap for front end and NodeJS Express for routing.

Scouting Scheduler

<https://github.com/mxmeinhold/ScoutingScheduler>

📅 Spring 2016, Spring 2017

Wrote a small application my robotics team to organize match scouting. Written in Java with a Swing GUI.

Seeking Spring-Summer 2019 Co-op
